AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A cutting head (1) ~~having one lower and one upper shearing blade (2, 3)~~ for an electric hair cutting machine (4), ~~characterized in that~~ comprising one ~~the~~ lower and one upper shearing blades (2, 3) ~~are~~ solidly ~~joined~~ fixed to one another, and a cutting blade (5) ~~with a cutting serration (6),~~ comprising cutting teeth (6) and made from a flat material (7) and ~~drivable~~ configured to drive in oscillation ~~oscillate~~, wherein the cutting blade (5) is located in a ~~slit~~ slot (31) between the lower and ~~the~~ upper shearing blades (2, 3), and wherein the cutting head (1) is provided with a hair length cut adjuster (9) configured such that the lower and the upper shearing blades (2, 3) can be adjusted relative to the cutting blade (5).

2. (currently amended) The cutting head as defined by claim 1, ~~characterized in that as~~ wherein the flat material (7), is a hard metal sheet (7.1) ~~is provided~~.

3. (currently amended) The cutting head as defined by claim 1, ~~characterized in that~~ wherein the cutting blade (5) has a thickness (S) of approximately 0.1 to 1.0 mm.

4. (currently amended) The cutting head as defined by claim 1, ~~characterized in that~~ wherein the cutting blade (5) is provided with a parallel guide (36).

5 and 6. (canceled)

7. (currently amended) The cutting head as defined by claim 1, ~~characterized in that~~ wherein a lubricant reservoir (8) is associated with the cutting head (1).

8. (currently amended) The cutting head as defined by claim 1, ~~characterized in that~~ wherein the hair cutting machine (4) is operated with a battery or with a rechargeable battery (16).

9. (currently amended) The cutting head as defined by claim 1, ~~characterized in that~~ wherein the cutting head (5) is ~~embodied as~~ is in the form of a structural unit (34).

10. (currently amended) The cutting head as defined by claim 9, ~~characterized in that~~ wherein the cutting head (5) is ~~embodied as~~ configured to be lockable to the hair cutting machine (4).
